## Education

- 2017 - 2019 **Ph.D.**, *College of Computer and Information Science*, Northeastern University, Boston, MA, Advisor: Prof. Long Lu.
- 2014 - 2017 **Ph.D.**, *Department of Computer Science*, Stony Brook University (transferred to Northeastern University), Stony Brook, NY, Advisor: Prof. Long Lu.  
GPA:3.90/4.00
- 2013 - 2013 **Exchange Student**, Polytechnic University of Catalonia, Barcelona, Spain.
- 2010 - 2014 **B.Sc.**, *Department of Computer Science*, Tongji University, Shanghai, China.

---

## Research Interests

My research interests mainly include **Bug Finding Automation, Program Analysis, Binary Exploit Mitigations, Virtualization, Operating System and Mobile Security.**

---

## Experiences

- Dec. 2019 - **Research Scientist**, *Program Analysis Team*, Facebook.  
present
- May. 2017 - **Research Assistant**, *RiS3 Lab*, Northeastern University.  
Oct. 2019
- Sep. 2018 - **Research Intern**, *Software Analysis Team*, Google.  
Dec. 2018
- June. 2018 - **Research Intern**, *System Security and Privacy Research*, Microsoft Research.  
Aug. 2018
- Feb. 2018 - **Research Intern**, *X-Lab*, Baidu USA.  
May. 2018
- May. 2017 - **Research Intern**, *B2B Lab*, Samsung Research America.  
Sep. 2017
- May. 2016 - **Research Intern**, *B2B Lab*, Samsung Research America.  
Sep. 2016
- Aug. 2014 - **Research Assistant**, *RiS3 Lab*, Stony Brook University.  
May. 2017

---

## Publications

**SAVIOR: Towards Bug-Driven Hybrid Testing**, Yaohui Chen, Peng Li, Jun Xu, Shengjian Guo, Rundong Zhou, Yulong Zhang, Taowei, Long Lu, In the proceeding of the 41th IEEE Symposium on Security and Privacy (Oakland'20).

**FUDGE: Fuzz Driver Generation at Scale**, Domagoj Babic, Stefan Bucur, Yaohui Chen, Franjo Ivancic, Tim King, Markus Kusano, Caroline Lemieux, Laszlo Szekeres and Wei Wang, In the proceeding of The ACM Joint European Software Engineering Conference and Symposium on the Foundations of Software Engineering (ESEC/FSE'19), (*Best Paper Award*).

**Pttrix: Efficient Hardware-Assisted Fuzzing for COTS Binary**, Yaohui Chen, Dongliang Mu, Zhichuang Sun, Jun Xu, Wenguo Shen, Xinyu Xing, Long Lu, Bing Mao, In Proceedings of the 14th ACM on Asia Conference on Computer and Communications Security (AsiaCCS'19).

**Compiler-assisted Code Randomization**, Hyungjoon Koo, Yaohui Chen, Long Lu, Vasileios P. Kemerlis, Michalis Polychronakis, In the proceeding of the 39th IEEE Symposium on Security and Privacy (Oakland'18), (*Final list, CSAW 2018*).

**InstaGuard: Instantly Deployable Hot-patches for Vulnerable System Programs on Android**, Yaohui Chen, Yuping Li, Long Lu, Yueh-Hsun Lin, Hayawardh Vijayakumar, Zhi Wang, Xinming Ou, In Proceedings of the 2018 Network and Distributed System Security Symposium (NDSS'18).

**Norax: Enabling Execute-Only Memory for COTS Binaries on AArch64**, Yaohui Chen, Dongli Zhang, Ruowen Wang, Rui Qiao, Ahmed Azab, Long Lu, Hayawardh Vijayakumar, Wenbo Shen, In the proceeding of the 38th IEEE Symposium on Security and Privacy (Oakland'17), (*Third Place of Best Paper Award in Applied Cyber Security Research, CSAW 2017*).

**Secure Integration of Web Content and Applications on Commodity Mobile Operating Systems**, Drew Davidson, Yaohui Chen, Franklin George, Long Lu, Somesh Jha, In Proceedings of the 12th ACM on Asia Conference on Computer and Communications Security (AsiaCCS'17).

**Shreds: Fine-grained Execution Units with Private Memory**, Yaohui Chen, Sebassujeen Raymondjohnson, Zhichuang Sun, Long Lu, In the proceeding of the 37th IEEE Symposium on Security and Privacy (Oakland'16).

---

## Research Projects

June. 2018 - **Hyper-V hypervisor coverage feedback-guided fuzz testing.**  
Aug. 2018

- Studied the existing automatic testing solutions for Hyper-V hypervisor.
- Designed and implemented code coverage guided fuzzer for Hyper-V hypervisor.
- The end-to-end solution involved Intel-PT virtualization support for hardware tracing.
- Discovered 3 real bugs in the newest Hyper-V hypervisor and they have been fixed.
- The solution has been adopted into Hyper-V hypervisor testing process before release.

May. 2017 - **Harnessing Efficiency of Fuzzing and Soundness of Symbolic Execution.**  
Aug. 2017

- Studied the inefficiency of symbolic execution and unsoundness of fuzzing.
- Developed light-weight static analysis to guide symbolic execution.
- Developed infrastructure to coordinate KLEE, AFL and static analysis components.
- Evaluated the framework on real-world programs including ARM TrustZone TAs, commonly fuzzed applications and showed it out-performed the state-of-the-art.

## Services

- 2016 - **IET Information Security**, *Journal Reviewer*.
- Present
- 2020 **International Symposium on Research in Attacks, Intrusions and Defenses (RAID)**, *Program Committee*.
- 2020 **ACM Conference on Computer and Communications Security (CCS)**, *Program Committee*.
- 2020 **The 29th USENIX Security Symposium (Security)**, *External Reviewer*.
- 2019 - 2020 **The Network and Distributed System Security Symposium (NDSS)**, *External Reviewer*.
- 2020 **IEEE Symposium on Security and Privacy (S&P)**, *External Reviewer*.
- 2019 **ACM Symposium on Information, Computer and Communications Security (ASIACCS)**, *External Reviewer*.
- 2018 **ACM Conference on Computer and Communications Security (CCS)**, *External Reviewer*.
- 2018 **IEEE Secure Development Conference (SecDev)**, *External Reviewer*.
- 2016 **Transactions on Dependable and Secure Computing**, *External Reviewer*.

## Honors and Awards

- 2019 **Best Paper Award**, ACM ESEC/FSE.
- 2019 **Google Fellowship Nomination**, Northeastern University.
- 2018 **RSA Scholarship**, *RSA Conference 2018*, U.S.A.
- 2017 **Best Paper Award**, CSAW, U.S.A.
- 2014 **Chair Fellowship**, *Department of Computer Science*, Stony Brook University.
- 2013 **Exchange Student Scholarship**, *Department of Computer Science*, Tongji University.
- 2012 **Second-Class Scholarship**, *Department of Computer Science*, Tongji University.

## Professional Skills

- OS **Linux, Android, Windows.**
- Programming **C, C++, Java, Python, System-verilog, ARM/x86/Sparc/MIPS assembly.**
- Compiler **Clang, LLVM.**
- Misc **Kubernetes, Reverse Engineering, Program Analysis, ELF Binary Linking Loading Toolchain.**
